

Century Group

Attends 2009 International Liquid Terminals Association Conference

Century Group Inc. participated in the 2009 International Liquid Terminals Association (ILTA) Conference by exhibiting at the trade show portion of their program. The conference attendees include owner/operators of liquid terminals from around the world and suppliers of material handling equipment and regulatory agencies including the U. S. Environmental Protection Agency (EPA).

Century Group represented both railroad spill collection pan systems and portable track berms for use by liquid terminals across the globe. For more information on Century Groups Inc.'s **railroad spill collection pans** used at **railroad tank car loading racks** or its portable containment berms for track loading stations contact railroad@centurygrp.com or call 1-800-527-5232, Ext. 118.
