Closed Riser Stair Treads Installed at University Housing Complex

Century Group Inc. recently manufactured and delivered precast concrete closed-riser stair treads to an apartment complex at the University of Tulsa in Tulsa, Oklahoma. The Century closed-riser stair treads featured a 36" width and were installed on the exterior stairs of the university's apartment complex.

The closed riser stair treads featured a bull nose edging meeting the IBC (International Building Code) specifications. Century's National Manufacturing Manager Rob Robinson commented, "We were excited to be the supplier of choice for the University of Tulsa project. Our Oklahoma Division did a great job in getting the stair treads manufactured and delivered to the project on time."
