

## Century Group

### Provides Concrete Stair Treads for New Apartment Complex

As the leading manufacturer of concrete stair treads, **Century Group Inc.** recently supplied its state-of-the-art **precast concrete closed riser stair treads** for The Commons at Chesapeake multi-family housing complex located in Chesapeake, Virginia. Century closed riser stair treads were supplied to GMW Contracting who installed the stair treads at the new residential complex.

North Carolina Division Manager, David Davis commented, “It was a privilege to work with GMW Contracting on this project and we look forward to supplying our concrete stair treads to them on future residential apartment complex projects.”

Century’s precast concrete stair treads are the product of choice for architects and engineers designing stairways for residential, educational and commercial facilities across the U. S. The Century stair treads meet and exceed all residential and commercial building codes. For more information on Century Groups Inc.’s **precast concrete stair treads** contact [steps@centurygrp.com](mailto:steps@centurygrp.com), call 1-800-527-5232, Ext. 110 or visit [www.centurygrp.com](http://www.centurygrp.com).
