

Century Group

Manufactures Concrete Pedestrian Crossing Panels

Century Group Inc. delivered custom manufactured concrete pedestrian crossing panels for a light rail transit agency in Texas. The precast concrete pedestrian panels were custom manufactured for each station enabling the transit agency to comply with ADA (American Disabilities Act) regulations. The pedestrian crossing panels also featured custom built double tapered ends to protect the ends of the crossings from dragging hoses and other equipment.

Century Group is the leading manufacturer of precast concrete pedestrian crossing panels for commuter and light rail transit agencies across the U. S. For more information on Century Groups Inc.'s full line of concrete railroad grade crossings and railroad spill containment systems contact railroad@centurygrp.com or call 1-800-527-5232, Ext. 118 or visit www.centurygrp.com.

Century Group delivered custom manufactured pedestrian panels for a transit agency in Texas. These panels were custom designed for each station enabling this agency to comply with ADA regulations. These panels also were manufactured with custom manufactured double tapered ends.
