

Century Group Inc. Attains NPCA 5th Anniversary Award

Century Group Inc., located in Sulphur, Louisiana is pleased to announce it was presented with the National Precast Concrete Association (NPCA) 5th Anniversary Award at the 2011 Precast Show in Charlotte, North Carolina. The designation recognizes Century Group Inc. as a precast concrete manufacturing plant operating at the highest standards of production and quality control.

NPCA established its national Plant Certification Program in 1987 to ensure a consistent industry benchmark and a high degree of excellence among precast operations. The program involves a comprehensive review of all aspects of a plant's manufacturing processes. To achieve certification, participants must pass an initial inspection. Plants then maintain certification by passing periodic, unannounced on-site inspections conducted by an independent engineering firm.

Century Group is a leading manufacturer of precast concrete steps, stair treads, and concrete highway railroad grade crossings in the U. S. For more information about Century Groups Inc. and their full line of precast concrete products, email the Century Group Precast Products Division, the Century Group Railroad Products Division or the Century Group Steps® Division or call 1-800-527-5232.
