

Century Group Provides Sign for Real Estate Development Firm

Century Group Inc. designed, manufactured, and delivered a precast concrete sign under the direction of NAI – Redd Properties, L.L.C. The three concrete signs included a main entrance sign, a tower directory sign, and a customized sign which featured individual plaques for a medical office complex.

The precast concrete signs were designed by Century Group to be self standing and anchored to poured-in-place concrete piers making them resistant to hurricane force winds. The concrete signs main title and letters were cast into the concrete along with imbedded anchors to accept replaceable plaques identifying the property tenants.

Century Group Inc. is a leading supplier of precast concrete signs across North America. For more information on Century Group Inc.'s precast concrete signs, security bollards, stair treads, and other precast concrete products, contact the Century Group Precast Products Division or call 1-800-527-5232, Ext. 165.
