

Spill Pans for Shortline Railroad Locomotive Fueling and Servicing Facility

Century Group Railroad Products Division supplied custom HDPE spill collection pans for a locomotive fueling, servicing and lube facility. This shortline railroad also services mainline locomotives for Class I lines at this facility. Century Group assisted this facility in meeting their FRP (Facility Response Plan) and SWPP (Stormwater Pollution Prevention Plan) programs with the HDPE spill collection pans. For more information on Century Groups Inc.'s concrete railroad spill collection pans or concrete railroad grade crossing panels click on the link to email the Century Group Railroad Products Division or call 1-800-527-5232, Ext. 118.
