

IMPORTANT NOTICE:

The Century Enviropans are designed to capture liquid and dry materials. The Enviropan® surface may be slippery when wet or dry and should never be used as a walking surface. Allowing the Enviropan® to be used as a walking surface could result in falls and/or injuries. If walking on the Enviropan® is necessary for normal operations/ maintenance, it should be done in a designated area where protective grating has been installed to accommodate such traffic. The Century Enviropans should be inspected after each load/off load operation for spills, clogged drains, etc... All employees who work in the vicinity of the Enviropan® system should be instructed in the proper use and maintenance of the system. Always wash down any Enviropans after any spillage.
